**Subject:** RE: LC QToF

I may have sometime later this afternoon (between 3-4PM) if I get my lab work done. Otherwise tomorrow or Thursday AM from 7-9 AM I am free.

Mark

**Subject:** RE: LC QToF

Thanks Mark,

Any chance we can touch base sometime this week as I'm still interested in your experience with the Agilent unit (that seems to be one that we might end up getting)?

Best,  
Lam

Lam,  
A colleague of mine that was formerly our EPA post-doc happens to be the Waters MS rep. I saw her this weekend and she indicated she would be in the Wilmington area in the near future. I wanted to put you in touch with her in the event you wanted to set up a meeting.

Her name is Aurelie Marcotte.

Mark

**Subject:** LC QToF

Hi Mark,

I hope this note finds you well as we have not communicated for quite some time. We are in the process of potentially acquiring a new LC QToF and I recall you have had some extensive experience with the Agilent one (6500 series) and would very much appreciate your opinion on it and potentially with other ones out in the market. Perhaps we can set up some time to discuss this over the phone if you are available. Please do let me know. Thanks.

Best Regards,  
Lam
